KEY FEATURES

ACS™ electronically adjustable cushioning system allows the user to customize the cushioning of the deck to fit their personal comfort level and training style

Reduces heel strike impact by up to 49%

Expansive 22"x61" running/walking surface

3 speed integrated fan to keep you cool throughout the workout

Personal Trainer program allows users to track workout information over a defined training period

ActivZone™ Icon illustrates which muscle groups are being activated throughout the workout

State-of-the-art display is intuitive, yet features comprehensive programming and electronics

Powerful, smooth, refined performance

The TR33 features an engaging tri-color dot matrix display with Personal CardioAdvisor™ for accurate heart rate feedback. Multiple programs keep your workouts fresh.
